Complaint Form **Necessary AT&T installation recall.**

Concise Statement of Facts/Complaint:

AT&T installed VRAD cabinet and electrical grounding close to my home, on and around my property at 820 East Steele Rd in West Columbia. AT&T did not inform me before and in the time of their installation works about the plan, scope of works, etc. There were not submitted to me any documents or results of safety tests. It happened that I have adequate knowledge and expertise in the area of electrical engineering and explosion protections.

After asking AT&T of recognition of the hazard of their grounding construction in the presence of other underground other installations including gas piping under my home, some AT&T employees acknowledged this risk but it seems they were somehow afraid to push AT&T management for proper solution and necessary test(s).

My formal reports to SC Department of Consumer Affairs and to SC Office of Regulatory Staff have not forced AT&T to professional approach to the problem. Today's natural gas explosion in San Bruno, CS where many people were injured and killed as well as entire neighborhood was demolished shows the power of destruction when safety rules and professional designing was neglected as it is in this huge – national security project with AT&T ignorance of nature science and professional standards.

Relief Requested:

1. Opening a PSC docket case number.
2. Ordering AT&T to adequate insurance for my property and family.
3. Organize the fast action investigation team with my person / knowledge in the leading management.
4. Let me organize the cooperation with other states (and maybe Canada provinces) to prevent disasters as these have been observed in last year 2010 , starting in WV coal mine explosion, next explosions in TX, on Gulf of Mexico, and today's natural explosion in CA.
5. More detailed scope, organizational structure, time and milestone schedule with required financial budget will be set with my expertise and troubleshooting / verification.
6. Support from US States' Attorneys to avoid criminal negligence including national security aspects.
7. I do reserve right to additional actions, as the Necessary Recall will be conducted.
